2° MEETING

CETACEANS’ CONTAMINATION IN THE PELAGOS SANCTUARY

Registration
Welcome greetings by
Giacomo Chiappori
Sindaco di Diano Marina
Sonia Viale
Vicepresidente della Regione Liguria, Assessore alla Sanità, Politiche sociali e Sicurezza
Marco Prioli
Direttore Generale ASL1 Imperiese (Italy)
Angelo Ferrari
Direttore Generale of Istituto Zooprofilattico Sperimentale del Piemonte, Liguria e Valle d’Aosta (IZSPLV)

Scientific session
Chairman: Walter Mignone – IZSPLV, C.Re.Di.Ma (Italy)
Introduction and presentation of the project: Biological and toxicological contamination of cetaceans in the Pelagos Sanctuary: assessment, origin, monitoring and mitigation
Hélène Labach – GIS3M (France)

Feedback on the 1st workshop (October 4th, 2019)
Léa Juret – GIS3M (France)
The earth is changing ... and also the sea! Stop (studies of toxicology and prevision) for the cetacean conservation
Letizia Marsili – Università di Siena (Italy)

Contamination on the Italian coastline of Pelagos Sanctuary and stranding events of cetaceans during the project.
Cristina Casalone – IZS PLV, C.Re.Di.Ma. (Italy)

Coffee break

Biological and chemical contamination of cetaceans in the Pelagos Sanctuary - a review
Julie Jourdan – GECEM (France)

Stranding network in Liguria: local collaborations for a rapid response
Alessandra Pautasso – ASL1 Imperiese (Italy)

Sampling protocols for cetacean strandings: panel for microbiological, biomolecular and histological analyses
Carla Grattarola – IZS PLV, C.Re.Di.Ma. (Italy)

Discussion

Lunch break

Results of diagnostic activities in stranded cetaceans from Italian coast line of Pelagos Sanctuary
Enrica Berio – IZS PLV, C.Re.Di.Ma. (Italy)

From Iceland to the Pelagos Sanctuary: the long journey of the killer whales
Sabina Airoldi - Tethys Research Institute (Italy)

Conclusions

Research group meeting:
Planning of future activities and road-map for elaboration of mitigation strategies and guidelines for local authorities from the Pelagos Sanctuary
